Technical Skills

Programming Languages: C++ , Java
Tools/Technologies: NMAP, Metasploit, WireShark
Operating Systems: Linux, Windows
Databases: MySQL

Projects

1)Project Title: Klassy Cafe

Description: Klassy Cafe is a modern restaurant website designed to showcase menus, services, and events for cafes and restaurants. It provides an intuitive user interface, elegant design, and responsive layout, ensuring a seamless user experience on all devices.

Technologies Used:

- HTML5, CSS3, JavaScript,Bootstrap,Font Awesome,Responsive Web Design

Impact/Achievements:

- Created a user-friendly and visually appealing website for restaurants and cafes.
- Fully responsive design that adapts to mobile, tablet, and desktop screens.
- Increased online engagement for local dining establishments.

2)Project Title: Coding Practice Website

Description: The Coding Practice Website is an interactive front-end project that offers learners a platform to explore and practice multiple programming languages. Each language is accompanied by helpful YouTube video tutorials linked directly on the site, providing users with an enhanced learning experience.

Technologies Used:

- HTML5, CSS3, JavaScript, Bootstrap,Hyperlinks for embedding YouTube tutorials

Impact/Achievements:

- Simplified learning process for programming enthusiasts by integrating video resources directly into the platform.
- Provided access to multiple programming languages, improving users' flexibility and engagement.
- Enhanced user experience with clean, responsive, and intuitive design.
